Summary

Computer Science & Engineering graduate skilled in Python, React.js, JavaScript, SQL and AWS (Amazon Web Services). Experienced in building responsive web applications, database-driven systems, and REST API-based solutions through academic and personal projects. Strong understanding of OOP and version control using Git and GitHub.

Experience

PrepInsta (Remote) *Intern*

- Automated data extraction and analysis tasks using Python and SQL, reducing manual effort and improving workflow efficiency.
- Developed Python scripts and SQL queries to organize, process, and analyze data effectively.
- Applied Python and SQL concepts to support data-driven tasks and improve routine data-processing workflows.

Projects

E-Commerce Web Application (React.js, Javascript, Html, Css)

- Built a responsive e-commerce web application using React.js.
- Developed reusable React components for product display and application functionality.
- Implemented dynamic product rendering using JavaScript and React.
- Created responsive layouts optimized for desktop and mobile devices.
- Implemented basic CRUD functionality for managing products and users.

E-Commerce Sales Analytics Database (Oracle SQL)

- Designed a relational e-commerce database with 6 interconnected tables using keys and constraints.
- Designed normalized tables with primary keys, foreign keys, and relationships to maintain data integrity.
- Performed sales and customer analysis using JOINS, GROUP BY, subqueries, aggregate functions.
- Created SQL Views for sales, customer spending, reviews, and category analysis.

Real-Time Hand Gesture Recognition System (Python, OpenCV)

- Developed a real-time hand sign detection system using Python and OpenCV.
- Applied image processing techniques to detect basic hand gestures from live camera input.
- Leveraged AI-assisted development tools for debugging, code optimization, and improving implementation workflow.

Application Management System (Node.js, Express.js, React.js, Oracle SQL)

- Developed a full-stack application management system using Node.js and Express.js with RESTful APIs.
- Implemented CRUD operations, JWT-based authentication, and SQL database integration for managing applications.
- Built features for application status tracking, search, filtering, and dashboard-based statistics.

Education

Institute of Engineering & Science (IPS Academy, Indore) 2021–2025
Bachelor of Technology in Computer Science & Engineering

City Montessori School, Morena 2020–2021
Higher Secondary (Class XII)

TSS International School, Morena 2018–2019
Secondary School (Class X)

Skills

Languages: Python, JavaScript, SQL

Technologies & Tools: React.js, Node.js, Express.js, HTML, CSS, Bootstrap, AWS, REST APIs, Git, GitHub, Oracle SQL, VS Code

Certifications

AWS Cloud Foundation	Amazon Web Services (AWS)
AWS Machine Learning	Amazon Web Services (AWS)
